

OSG USER SCHOOL 2020

July 6–10

Harness the power of distributed computing

- Use High Throughput Computing (HTC) and the Open Science Grid (OSG)
- Learn how to access and use thousands to millions of hours of computing
- Get help handling lots of data (gigabytes, terabytes)
- Learn by doing — lots of hands-on activities
- Taught by faculty & staff who work with distributed computing daily

Ideal for graduate students and support staff (and others!)
who use large-scale computing for research:

**Physics • Biology • Chemistry • Statistics • Economics
Medicine • Engineering • Language • Psych • More!**

More Info + Financial Support + Application (due March 31):
